CALL FOR PAPERS

Scope and Topics: We invite original, unpublished work advancing resources, evaluation and human-centric language technology for Indian languages. Topics include (but are not limited to):

- Creation and evaluation of datasets and benchmarks
- Annotation schemes, guidelines, and tooling
- Harmonization of formats, resources, and evaluation metrics
- Resource curation for low-resource Indian languages
- Language-specific modelling challenges
- Human-centric evaluation, fairness, accessibility, and usability
- Cross-lingual transfer and multilingual evaluation
- Ethical and community-driven dataset creation and release
- Domain-specific applications in Indian languages
